Dear Mr Rothberg,

We at Higgins plant look after all the plant requirements for all Higgins Group of companies. Such is our work load that we have to arrange pump outs of manholes, CCTV drain surveying, Drain re-lining, High pressure water jetting & vacuum tanker services.

We have been dealing with Abbey Drains Ltd for approximately 2 years now and we find Abbey Drains fully committed and always achieve the highest standards. They will always work with our site agents to produce the best solution possible, this also results in the most cost effective use of materials and energy.

The feed back we get from our site teams is very positive.

There are many suppliers to choose from in this market and we at Higgins Construction strongly believe we have found the best and we will continue to grow and develop what is a great partnership from a company that still believes in providing a top class service.

Many Thanks,

Glen Smith
Plant Manager.
